## Information about the confirmation from a Natural Science Faculty for the application of a doctoral study at the Medical Faculty

*(only for doctoral students of the Faculty of Medicine)*

In order to receive a confirmation from a Natural Science Faculty for the application of a doctoral study at the Medical Faculty regarding your university degree in Biology, you have to bring the following documents to the office of doctoral affairs at the Faculty of Biology (Mon, Wed, 9-12 a.m., room B01.030, Biocenter of LMU, Großhaderner Str. 2, 82152 Planegg-Martinsried):

- doctoral supervision agreement (you obtain it from your supervisor at the Faculty of Medicine)
- degree, certificate and transcript of records **in original** of your Bachelor- and Master-study or diploma

All necessary documents should be sent before to [promotion@bio.lmu.de](mailto:promotion@bio.lmu.de).

If all the requested documents are handed out, the confirmation for German degrees can be made directly.

For foreign degrees the equality to German degrees must be verified at first. In this case also duration, range of studies and the confirmation of a written thesis should be evident in your documents.
